8. Linking to other websites

The website contains hyperlinks to websites owned and operated by third parties. These websites have their own privacy policies and we urge you to review them. They will govern the use of personal information you submit whilst visiting these websites. We do not accept any responsibility or liability for the privacy practices of such third party websites and your use of such websites is at your own risk.

9. IP Addresses

We study visitor trends since we are interested in the successful dissemination of information through the websites. Our server creates log files of information such as the Internet Protocol (IP) address from your network, what pages were explored and the length of your visit. Analysis software is used to generate reports which help us to learn more about how we can enhance your experience with the websites. This information is not used to develop a personal profile of you. The log files are regularly purged. An IP address is a number designated for your computer by your Internet service provider to provide access to the Internet. Generally, an IP address will change every time your computer connects to the Internet. However, if you have a broadband connection, it is possible that the IP address that we may gather may contain information that may be deemed identifiable. This could occur due to the fact that by using certain broadband connections, your IP address would not change and could be associated with your personal computer. We may use your IP address to gather aggregate information on use. But we will only be able to identify you individually if we have the means of linking the IP address to you as a particular user. This usually requires access to additional information which we do not seek.

You have the right to request a copy of the personal information that we hold on you, to have any errors in that information corrected and to request that the personal information is deleted. Please address your request to the data protection manager at [E-Mail](mailto:DataProtection@olympus-europa.com) (mailto: DataProtection@olympus-europa.com).
